

# RedHOT Spray

stops unwanted chewing

**RedHOT Spray** is a safe, non-toxic formula of soap, spices and flavouring to deter horses (and other animals) chewing on bandages, leg wraps, blankets and casts.

## Ingredients

Capsaicin (<1%)\*, Surfactants, Water and Red Colouring.

*\*Please note: Capsaicin is a prohibited substance in the equine industry (racing, harness and FEI). If you are competing or racing, Kelato advises you consult with your veterinarian or regulatory authority prior to use.*

## Available Size

> 1L

## Product Features and Benefits

- ✓ Deters animals from chewing on fence posts, bandages, leg wraps, rugs and tails
- ✓ Effective in coating hard surfaces where animals like to chew (stables, stalls, trailers, kennels)
- ✓ May reduce windsucking
- ✓ Safe to use with dogs and livestock

## Directions For Use

- > Spray liberal amounts on the surface you wish to protect. Re-apply as needed. Washes off easily and is not known to stain, however we recommend testing on a small inconspicuous area if you are concerned.
- > Avoid contact with eyes, nostrils and mucous membranes.
- > Be aware of direction of air flow prior to spraying.
- > Do not use with cats.

stops unwanted chewing

A bitter tasting paste which can be brushed onto surfaces to deter chewing, biting and windsucking by horses and other animals.

**RedHOT Paste** is easy to use and includes a brush to apply to the desired area of deterrence.

## Key Ingredients

(per g): Capsaicin 3.5mg\*

*\*Please note: Capsaicin is a prohibited substance in the equine industry (racing, harness and FEI). If you are competing or racing, Kelato advises you consult with your veterinarian or regulatory authority prior to use.*

## Available Sizes

> 500gm > 2.5kg

## Product Features and Benefits

- ✓ Easy to use in confined spaces
- ✓ Stops animals chewing on fence posts, bandages, leg wraps, rugs and tails
- ✓ Effective in coating hard surfaces where animals like to chew (stables, stalls, trailers, kennels)
- ✓ May reduce windsucking
- ✓ Safe to use with dogs and livestock

## Directions For Use

- > Brush over the surface you wish to protect with the supplied brush or a rag. Use gloves and avoid contact with eyes, nostrils or mucous membranes.
- > RedHOT Paste is not known to stain. However, we recommend testing on a small inconspicuous area if you are concerned. Can be lightly scrubbed off with soapy water if applied incorrectly.
- > Do not use with cats.
