Soft & Chewy Treats

INABA is deeply rooted in a family tradition of excellence that has continued for generations. In 1805, Mr. Yoshizo Inaba started his business in Japan, harvesting fresh tuna from the sea, while providing high-quality food to families throughout Japan. Building on our seafood harvesting heritage, Inaba Foods branched into pet food in 1958. The Churu brand was born in 2012, and in 2016, Inaba Foods came to the United States.

The Inaba family is committed to giving pet parents healthy options for their beloved companions. Our treats are made from high-quality ingredients, including farm-raised chicken and wild-caught tuna. We make them low-calorie and high-moisture to help keep pets healthy. Treats are also always free from grains, preservatives, and artificial colours.

Our company continues to thrive in the 21st century. Today, Inaba is Japan's most popular brand of premium cat & dog dinners and treats. Our products are available throughout the world.
